

ACKNOWLEDGMENTS

This thesis was partially supported by the research of Graduate School, Buriram Rajabhat University. However, this thesis would not have been accomplished without the support and encouragement of many people.

First, I would like to express my gratitude to my thesis advisor, Dr. Kampeerapab Intanu for his continuous guidance suggestions and thoughtful advice. With his enthusiasm and his academic expertise make this thesis possible to complete.

I am particularly grateful Assistant Professor Dr. Chookiat Jarat, my co-advisor, for his suggestion, kindness and help the completion of this paper.

The professors who were on my committee have given their time to read and comment on my work, which was appreciated – Assistant Professor Dr. Surachai Piyanukool, Assistant Professor Dr. Nawamin Prachanant, Dr. Prayoon Chaowaneenart – thank you for their insights, guidance and take the time to edit and proofread my paper and for their guidance, support and encouragement throughout the completion of this paper.

To my family, I offer my appreciation for their continuing support unconditional love. In particular, I would like to express my gratitude to my parent for supporting me thoughtful my education.

I would like to thank older sister, Miss Khwanchanok Kaewchongkul, for her support to help me anything all these years. Their love and consideration gave me courage to face challenge and never give up.

Tanyalux Kaewchongkul
